

Dear Heritage Community,

You are aware that an additional announcement was made by the ministry of education (MECC) on Wednesday, Order Nr.28 from 02.03.2021, that all schools in Moldova would now have an extended Spring break from the 5th until the 15th March. These additional 5 days need to be recovered physically in school and the ministry has also made that very clear. How we will recover them is something we will consider and communicate once we are agreed how we do this as a school.

We had hoped to operate "Educational Support" next week especially because of the urgency of preparing exams classes for national and Cambridge exams, but we have been informed directly that we are unable to do so.

The administration will be available in school next week with physical access on the campus.

There will be our weekly newsletter, the International Heritage Herald, for Week 24 this week but not one next week. Next IHH will be Week 26/35, Friday 19th March.

We are looking forward to welcoming everyone physically back on Tuesday 16th March to school (and those online for hybrid) and we urge all our community to continue respecting the safe measures in the wider society and support our key health workers.

Have a great Spring vacation and thank you for your continued support and understanding,  
Kind regards,  
Rob Ford
